A

Adamovich, N. A. - 179
Airapetyan, S. N. - 247
Al'tman, Ya. A. - 105
Arshavskii, Yu. I. - 128
Artemenko, D. P. - 212

B

Berkinblit, M. B. - 128
Bezhenaru, I. S. - 185
Borgest, A. N. - 179
Bykova, L. G. - 223
Byzov, A. L. - 63, 160, 205

D

Dneprovaya, T. F. - 192

E

Evdokimov, S. A. - 179
Ézrokhi, V. L. - 236

F

Flerova, G. I. - 205

G

Gel'fand, I. M. - 128
Gerasimov, V. D. - 240
Gershuni, G. V. - 105
Glezer, V. D. - 70
Gokin, A. P. - 185
Gura, E. V. - 36, 199

I

Isabekova, S. B. - 167
Ivanov, V. A. - 70

K

Kazakov, V. N. - 50
Kogan, A. B. - 93
Kostyuk, P. G. - 2, 10, 121
Kuznetsova, L. P. - 63

L

Leonova, E. F. - 42
Levchuk, O. V. - 57
Limanskii, Yu. P. - 36, 135, 199

M

Magura, I. S. - 85
Mamonets, T. M. - 142
Maruseva, A. M. - 105
Mel'nichenko, L. V. - 79
Minor, A. V. - 205
Mirgorodskii, V. N. - 231
Motsnyi, P. E. - 192

N

Nikitin, O. A. - 26

O

Osipov, L. F. - 247

P

Pavlygina, P. A. - 223
Pilyavskii, A. I. - 121, 199
Preobrazhenskii, N. N. - 135, 185
Pyatigorskii, B. Ya. - 10

R

Radionova, E. A. - 105
Ratnikova, G. I. - 105
Repina, Z. A. - 26
Roitbak, A. I. - 99

S

Serkov, F. N. - 42, 113
Shaban, V. M. - 217
Shapovalov, A. I. - 26
Shcherbach, T. A. - 70
Shelest, I. I. - 42
Skok, V. I. - 79, 231
Sorokina, Z. A. - 247
Storozhuk, V. M. - 113
Sverdlov, Yu. S. - 18

T

Topchieva, E. P. - 172

V

Vakolyuk, N. I. - 253
Vartanyan, I. A. - 105
Vasilenko, D. A. - 2, 10
Vedyaev, F. P. - 148
Yakobson, V. S. - 128

Z

Zadorozhnii, A. G. - 2, 10
Zelenskaya, V. S. - 154

NEUROPHYSIOLOGY
Volume 1, Numbers 1-3, 1969
(A translation of Neirofiziologiya)

Number 1 July-August, 1970

	Engl.	Russ.
From the Editor	1	1
Responses of Motor Neurons of Lumbar Section of Spinal Cord Elicited by the Activity of the Proprisospinal Pathways — P. G. Kostyuk, D. A. Vasilenko, and A. G. Zadorozhnii	2	5
Corticofugal Postsynaptic Influences on Neurons of Clarke's Column — D. A. Vasilenko, A. G. Zadorozhnii, P. G. Kostyuk, and B. Ya. Pyatigorskii	10	15
Potentials of Spinal Motoneurons in Cats with Experimental Tetanus — Yu. S. Sverdlov	18	25
Pyramidal and Extrapyramidal Synaptic Effects upon Chronically Deafferented Motoneurons of the Spinal Cord of a Cat — Z. A. Repina, A. I. Shapovalov, and O. A. Nikitin	26	35
Corticofugal Influences on Neurons of the Main Trigeminal Sensory Nucleus — Yu. P. Limanskii and E. V. Gura	36	47
Evoked Potentials of the Auditory Cortex on Paired Stimuli — F. N. Serkov, E. F. Leonova, and I. I. Shelest	42	54
Thalamic Relay of Somatic and Visceral Signals to the Orbital Cortex — V. N. Kazakov	50	65
Features of Evoked Potentials in the Cerebellar Cortex of Rabbits — O. V. Levchuk	57	73
Adaptation of the Visual System — A. L. Byzov and L. P. Kuznetsova	63	81
Investigation of Functional Organization of Receptive Fields in the Cat Visual Cortex — V. D. Glezer, V. A. Ivanov, and T. A. Shcherbach	70	90
Electrophysiological Investigation of the Cat Ciliary Ganglion — L. V. Mel'nichenko and V. I. Skok	79	101
Action Potentials of the Mollusk Giant Neuron with Changes in Extracellular Concentrations of Sodium and Calcium Ions — I. S. Magura	85	109

Number 2 September-October, 1970

Real Neuron Assemblies Forming during Screen Structure Activities of the Brain — A. B. Kogan	93	123
A New Hypothesis on the Mechanism by which Temporary Connections Are Formed — A. I. Roitbak	99	130
Functional Classification of Neurons of the Cat Inferior Colliculus on the Basis of Temporal Characteristics — G. V. Gershuni, Ya. A. Al'tman, I. A. Vartanyan, A. M. Maruseva, E. A. Radionova, and G. I. Ratnikova	105	137
Responses of Neurons in the Auditory Cortex to Sound Stimuli — F. N. Serkov and V. M. Storozhuk	113	147
Synaptic Processes in Spinal Cord Interneurons under Rubrospinal Effects — P. G. Kostyuk and A. I. Pilyavskii	121	158
Two Types of Granular Cells in the Cerebellar Cortex — Yu. I. Arshavskii, M. B. Berkinblit, I. M. Gel'fand, and V. S. Yakobson	128	167

Engl./Russ.

Activation of Bulbar Reticular Neurons by Visceral Afferents – N. N. Preobrazhenskii and Yu. P. Limanskii. 135 177
Influence of the Stimulation of the Dorsal Hippocampus on the Dorsal Root Potentials of the Spinal Cord in the Cat – T. M. Mamonets. 142 186
Analysis of the Effects of Electrical Stimulation of Certain Limbic Structures – F. P. Vedyaev 148 194
Effect of Stimulation of the Caudate Nucleus on Activity of Neurons of the Globus Pallidus – V. S. Zelenskaya 154 202
On the Role of Horizontal Cells in the Mechanism of Retinal Adaptation – A. L. Byzov. . . 160 210
Effect of Background Illumination on Evoked Potentials of the Visual System in the Turtle Emys orbicularis – S. B. Isabekova 167 219
Influence of Medium Ionic Composition on the Electrophysiological Properties of the Intracardiac-Neuron Membrane – E. P. Topchieva 172 225

Number 3 November-December, 1969

Influence of Afferent Impulses from the Nerves of the Anterior Limbs on the Insertion Neurons of the Lumbar Section of the Spinal Cord – N. A. Adamovich, A. N. Borgest, and S. A. Evdokimov. 179 235
Monosynaptic Excitory Postsynaptic Potentials in Thoracic Motoneurons under Reticulospinal Influences – N. N. Preobrazhenskii, I. S. Bezhenaru, and A. P. Gokin 185 243
On Mechanisms of Depression in Pathways of Presynaptic Inhibition – P. E. Motsnyi and T. F. Dneprovaya 192 253
Synaptic Potentials of Motoneurons of the Masseter Muscle – E. V. Gura, Yu. P. Limanskii, and A. I. Pilyavskii. 199 262
Integral Evoked Potentials and Single Unit Activity in the Frog Olfactory Bulb – A. V. Minor, G. I. Flerova, and A. L. Byzov. 205 269
Inhibition in Hippocampal Pyramidal Neurons during Peripheral Stimulation – D. P. Artemenko 212 278
Time Relations between the Evoked Potential and Activity of Hippocampal Neurons – V. M. Shaban 217 285
Direct Cortical Response in the Cat Motor Cortex during Summation – P. A. Pavlygina and L. G. Bykova 223 293
Tonic Impulsation in Preganglionic and Postganglionic Sympathetic Fibers of Mammals – V. N. Mirgorodskii and V. I. Skok. 231 303
Variability of Adaptational Properties of an Excitable Neuron Membrane – V. L. Ézrokhi. . 236 309
The Role of Low Sodium Ion Concentrations in the Generation of Action Potentials by Neurons of the Apple Snail (Helix pomatia) – V. D. Gerasimov 240 315
The Role of Calcium Ions in the Maintenance of Resting Potentials and Ionic Gradients of Mollusk Neurons – S. N. Airapetyan, L. F. Osipov, and Z. A. Sorokina 247 323
Stereotactic Coordinates of Canine Subcortical Ganglia – N. I. Vakolyuk 253 331
